

Hellas Gold Single Member S.A. is a mining company for gold, silver, lead, and zinc, headquartered in Athens. Since 2004, it has been responsibly and safely developing and operating the Kassandra Mines in NE Halkidiki under the strictest environmental terms. The Kassandra Mines consist of three mining projects: the Stratoni-Mavres Petres Mine, the Olympias Mine, and the Skouries Project. Continuing a 25-century mining history, Hellas Gold invests in the sustainable development of the Kassandra Mines, boosting economic growth and contributing to the prosperity of the local community with investments exceeding \$3 billion, employing over 2,000 workers, actively supporting local suppliers, and making significant investments in local community support initiatives and projects. Since 2012, it operates as a subsidiary of Eldorado Gold Corporation, a Canadian mining company with over 30 years experience in the exploration, development, and operation of mines worldwide.

We live our values in pursuit of our purpose: to find a better way to do things. We aim to break new ground in all that we do. We do this by creating a positive impact today, and for future generations, through our commitment to operating safely, sustainably, and profitably.

The company offers the opportunity to those who wish to express interest in the position of **“Junior Mining Engineer”**, for its premises in Chalkidiki. The position will report to the Senior Mine Planning and Design Engineer of the Technical Services – Engineering department, based in Olympias.

Main Responsibilities:

- Design and develop drift fill notes and backfill schedules while monitoring and reporting on backfill QA/QC.
- Develop and implement backfill mine schedules and infrastructure requirements, coordinating with the backfill plant and mining operations to meet production needs.
- Manage contractors and mine employees to execute backfill scopes of work and liaise with commercial teams and suppliers for backfill materials.
- Plan and monitor the paste reticulation system for drift filling, conduct ground control inspections, and perform design audits in the operating underground mine.
- Assist in managing and maintaining the Ground Control Management Plan and Mine Design while analyzing data to ensure proper performance and taking corrective actions as required.

- Conduct underground inspections, including stopes, voids, active development headings, infrastructure, rises, and shafts, ensuring ground support design and QA/QC compliance.
- Optimize shotcrete mix design, monitor paste fill QA/QC, and maintain databases for ground support performance and downtime trends in backfill quality.
- Analyze geotechnical data, including face mapping and rock mass classification, and prepare detailed short-term layouts and infrastructure plans.
- Update and maintain 3D CAD models of weekly plans, designs, and service requirements while optimizing production through mine design and scheduling.
- Participate in ensuring compliance with health and safety procedures, contributing to a safe workplace, and addressing incidents by investigating and implementing preventive measures.

Requirements:

- Bachelor's degree in mining engineering (a post-graduate degree would be considered an asset).
- At least 2 years of experience in mine planning, design, and/or mining for an underground mine operation.
- Professional Engineer registration.
- A high regard for safe practices and commitment to safety protocols.
- Proficient in Microsoft, Deswik, and Autodesk Packages.
- General knowledge of Mine Planning software.
- Ability to work well both independently and as part of a team.
- Strong sense of responsibility and accountability.
- Good verbal and written communication skills.

Our company offers a competitive remuneration package that includes an attractive combination of salary and benefits, as well as opportunities for development in a challenging work environment.

Inclusion and Diversity

Hellas Gold is an equal opportunities employer. We are committed to promoting an inclusive and diverse workplace where we value and respect every colleague for who they are and provide equality of opportunity so that everyone can fulfill their potential.
