

SIDENOR

is looking for a

Business Strategy Specialist

to join the **Strategy & Business Operations division** in Maroussi, Attiki.

Sidenor, is looking for a **Business Strategy Specialist for its Headquarters in Maroussi**. With 60 years of industry know-how and expertise **Sidenor is the largest steel industry** in Greece and constitutes the steel production and trading segment of Viohalco. Sidenor Group is a leading steel producer in Southeastern Europe with **4 production units** in Greece, Bulgaria and Northern Macedonia.

The Group's products are available in **more than 50 countries** with a significant contribution to the economic growth, such as those of steel reinforcing for building and infrastructure projects, shipbuilding and various other industrial applications.

If you want to be part of this large and dynamic organization, Sidenor Group has the opportunity for you!

As the **Business Strategy Specialist** you will report to the Senior Director of Strategy & Business Operations and you'll play a pivotal role in shaping Sidenor's business strategy. This role provides 360° exposure across the organization and offers a blend of strategic and operational aspects, offering the opportunity to make a tangible impact.

What you will need to do:

- Conduct in-depth business analysis and build quantitative models to evaluate business cases, support business decisions and new investments.
- Perform scenario modeling and provide actionable insights.
- Research and analyze market trends, competitors and industry developments, delivering data-driven conclusions.
- Prepare executive-level presentations, to communicate findings and recommendations effectively.
- Collaborate with cross-functional teams to jointly assess strategic options and coordinate cross-functional projects.

What you need to possess:

- Bachelor's or master's degree in engineering; additional qualifications in Economics or Business are considered a plus.
- 2-5 years' experience in business analysis, strategy, consulting or corporate strategy roles
- Solid expertise in business analysis and quantitative modeling, including robust Excel-based models for what-if analyses, strategic planning and scenario assessments.

- Familiarity with data management, analysis, and visualization tools (e.g., R, Python, SQL, BI tools) is a plus.
- Experience with financial analysis and financial modeling is an advantage.

What will lead you to success:

- Excellent communication and presentation skills (Greek & English)
- Analytical mindset with structured problem-solving capabilities.
- Proactive approach, ownership, attention to detail and genuine interest in learning
- Hands-on, self-starter attitude - Ability to drive initiatives with little guidance
- Team-player attitude

What we will offer to you:

- A workplace with a strong focus on values of teamwork, integrity, and ownership
- Dynamic and friendly working environment
- Competitive remuneration and benefits package
- Continuous training and career development opportunities
- Private medical & health insurance plan
- Food vouchers
- Mental health support line

What you will need to do next:

Joining the Sidenor Group family is easy! If you feel that you meet the criteria and have the passion to succeed, simply apply by submitting your CV in English and leave the rest to us!
