

Job Title: Cargo Operator | Supply Specialist

Our People, Our Energy!

The Company

Our People, Our Energy!

At Motor Oil Group, our people are our energy!

We support the Greek economy with exports to over 75 countries, thousands of employees, and continuous new investments. We are active in the crude oil refining and trading of petroleum products, LPG, electricity, gas trading, renewable energy sources and circular economy. We work together to shape the future of energy and the next generation of leaders. We focus on developing and empowering our people, cultivating their talents that will shape our future journey towards the energy transition.

We strive to develop our people to their highest potential, through continuous education and assignment of challenging projects.

Starting with the role:

We are searching to hire a **Cargo Operator | Supply Specialist** within the **Supply and Trading** division of Motor Oil Group for oil related products for the domestic market.

During your day you will:

- Prepare, monitor, execute the contracts by coordinating with clients and other stakeholders, such as the Refinery & other installations.
- Timely and detailed oriented daily operations to secure the execution of contracts, including the relevant tasks in the company's ERP system.
- Schedule and monitor the supply of products in various installations by vessel/truck.
- Constantly monitor liftings/deliveries performance, be aware of demurrage implications, delays in scheduling and investigate outturn losses.
- Analyze the oil market trends and propose trading and tender opportunities, providing all necessary details and market specifications.
- Prepare real time trading reporting, and monitor company's price exposure using the company's MI systems
- Monitor company's stock availability, as well as Refinery's needs and supply pattern.

What you need to stand out:

- Bachelor's University degree preferably in Engineering, Finance or other numerate discipline.
- Master's degree in one of the abovementioned disciplines will be considered an asset.
- At least 4 years' experience, preferably within the oil & gas or freight transport, in roles such as trading or supply operations, risk and market analysis.

- Fluent verbal and written communication skills in English
- Proficient use of MS Office, especially Excel & PowerPoint
- Knowledge of risk management techniques and tools will be a plus.
