

We are the leading player in the Energy sector in Greece.

Our customers are at the heart of everything we do and we constantly seek new ways to make them happy through our products & services.

To further support our growth, we are expanding our teams and we are seeking to recruit, Athens based:

## **IT Junior Cloud Engineer – Intern (Χρηματοδοτούμενη Πρακτική Άσκηση μέσω ΑΤΛΑΣ/ ΕΣΠΑ)**

### **The role will:**

- Collaborate with end users to understand their needs and provide top-notch support.
- Manage and fine-tune computers, applications, and IT systems to ensure seamless performance.
- Install, configure, and document software and hardware for smooth operations.
- Improve IT support processes to boost efficiency and team productivity.
- Investigate service disruptions, identify root causes, and implement preventive solutions.

### **Qualifications & Skills:**

- BSc student or graduate in Computer Science or related field; a Master's degree is a plus.
- Experience in troubleshooting, problem-solving, and network management.
- Analytical and problem-solving skills.
- Excellent communication and teamwork abilities.

### **We offer:**

- Cutting edge technologies and all the tools you need to experiment with new technologies
- A modern, dynamic working environment that inspires engagement and teamwork
- Complete access to all our targeted learning resources
- All the state-of-the-art tools you need to work
- A 24/7 support line and complementary events to support your holistic health

Please send us your CV at [n.mintzira@fysikoaerioellados.gr](mailto:n.mintzira@fysikoaerioellados.gr). We look forward to reviewing your application.

We encourage a working environment of trust, diversity and safety. We invite applicants of diverse background, and we hire without regard to any characteristic protected by law. All applications will be treated in the strictest confidentiality.
