Emerging Technologies Specialist Position

Within the Information & Communication Technology (ICT) Department, we are looking for an Emerging Technologies Specialist. Your call will be to evaluate emerging technologies, identify their business applications, and assess their potential to drive innovation, enhance performance, and deliver a competitive edge. It also involves aligning technology adoption with organizational goals and values, with a strong emphasis on ethical and responsible implementation. Your tasks will indicatively include:

- Contribute to the Division's technical matters with respect to guidelines, methodologies, operating methods, and tools.
- Identify, analyze, and assess solutions for integrating new technologies into existing infrastructure and workflows, ensuring seamless adoption and operational efficiency.
- Contribute to the development and implementation of AI and IoT solutions across Company, managing technical and business requirements.
- Work closely with Engineering, Operations, and other competent teams on behalf of ICT to understand technological needs and align emerging solutions with business objectives.
- Participate in meetings held by the Division with the parties involved in relevant project.
- Deliver clear and concise reports summarizing new technologies proposals findings, conclusions, and actionable recommendations to facilitate the decision-making process.

Qualifications

- Bachelor's degree (Diploma) in Electrical and Computer Engineering, Information Technology, or other related fields.
- At least six (6) – eight (8) years of experience in managing ICT systems
- At least three (3) years of experience in managing ICT projects.
- Understanding of emerging technologies such as IoT, AI, machine learning, big data analytics, and automation as well as experience with industrial control systems, SCADA, and cybersecurity principles.
- Previous experience in BIM implementation would be considered an asset.
- Very good use and command of the English language.

Soft Skills

Strong communication skills in the context of cooperation and team spirit with analytical thinking | Attention to detail and consistency in following company's policies and procedures | Accountability, confidentiality and trust | Flexibility and adaptability
