

*Department: Technical**Title: Electrical Superintendent**Location: Athens*

1. About Anglo-Eastern

Headquartered in the vibrant city of Hong Kong, we've been at the helm of the maritime industry for 50 years, with our comprehensive suite of services encompassing all aspects of ship management, crew management, cruise management and technical services across all vessel types and sizes. Our reach is truly worldwide, with a presence in over 29 locations across Asia-Pacific, Europe, and the Americas. At Anglo-Eastern, we're more than just a service provider; we are innovators, problem-solvers, and pioneers, that are progressively setting the standard so that we can shape a better maritime future.

2. The Technical Department (Electrical Team)

Ready to power your career forward? Join the **world's largest ship management company**, renowned for its diverse fleet of dry cargo vessels, tankers, offshore units, and dual-fuel passenger ships. We're looking for a passionate and skilled candidate to join us as an Electrical Superintendent to become part of one of the **strongest electrical teams in the shipping industry**. This is your chance to work with cutting-edge maritime technology, support a global fleet, and grow professionally in a collaborative, high-performance environment. If you're driven by innovation and excellence, we'd love to connect or If you're ready to elevate your career and make a real impact, we want to hear from you.

3. What You will Do

To provide the technical support for the fleet's management by contributing to technical matters pertaining primarily to electrical and electronic equipment and systems.

Roles and Responsibilities:

- Coordinate and follow up repair and maintenance work for electrical electronic and automation equipment and systems, in accordance with QHSEMS and Company's requirements
- Monitor and ensure the scheduled inspections and shore-based maintenance programs for the assigned equipment on board the vessels
- Prepare the work orders and repair specifications related to the electrical and electronic equipment

- Coordinate voyage / shipyard repairs and new installations for specific systems
- Attend for vessel's technical problems related to electrical and electronic systems in cooperation with the superintendents
- Support the activities for the preparation of repairs / retrofit / new project specifications
- Attend dry dockings and major repairs related to electrical and electronic equipment, organize, coordinate, and supervise the activity on board in cooperation with the ship's superintendent
- Ensure full compliance of all electrical activities with the company's safety standards and procedures and to contribute / ensure related improvements and development
- Cooperation with the vessel's superintendent - monitor the Planned Maintenance System databases related to electrical-electronic equipment of all vessels and ensure that the related jobs are completed and properly recorded
- Establish and maintain preventive maintenance and repair programs
- Monitor and contribute for minimizing the expenses related to electrical and electronic equipment and assist in the formulation of the relevant budget
- Prepare various relevant reports to the management, as requested

4. What We Are Looking For

Formal education: Bachelor's degree in Electrical Engineering

Experience: Prior work experience in Electrical Engineering (up to 1 year) will be considered as a plus

Other qualifications: Excellent PC skills, Flexibility, teamwork, high performance orientation, excellent communication skills, ability to multitask and relationship management skills. Also, ability of movement for about 2 weeks per 3 months for vessel attendances

Languages: Fluent English, other European language is an asset

The ideal candidate will possess a solid foundation of the responsibilities/qualifications required in the role. In addition, they will exemplify Anglo-Eastern's values, be a team player and exhibit passion for making a meaningful impact. The right behaviours can often outweigh a specific skill set or experience and we are committed to developing and providing the right training, coaching and experiences for candidates to be successful.

5. What We Offer

We aim to provide a dynamic, inclusive, and rewarding work environment where your ideas are valued, your professional growth is nurtured, and you are able contribute to shaping the future of the maritime industry and keeping the world connected. This meaningful and rewarding role provides:

- A unique opportunity to work with a global company with a family feel, who is a recognised leader in ship management
- Development and mentorship to support your professional aspirations

- A culture of professional excellence, employee care, well-being and fun
- A competitive compensation and benefits package

We believe in the potential of our team members and are dedicated to fostering careers, not just jobs. If the above energises you, we invite you to apply and join our team!
