

Shape the Future of the Cable Industry – Unleash Your Potential!

Are you ready to make an impact in the cable industry? Work4u is looking for a **Quality Control Engineer** to join a dynamic and growing team at a leading provider of high-quality cable solutions.

Position: Quality Control Engineer

Location: Thebes (Thiva), Central Greece

Our client is committed to manufacturing cutting-edge cable products and delivering exceptional customer service. As they continue to expand operations and explore new markets, they are looking for passionate individuals eager to make a difference and contribute to the ongoing success of the company.

**Responsibilities:**

- Issue and review technical documents
- Study international specifications and standards, and participate in technical meetings
- Supervise, coordinate, and perform electrical tests & measurements
- Issue operating & safety instructions
- Train and develop laboratory personnel
- Resolve emerging problems/deficiencies and address open technical issues
- Process and interpret measured data
- Plan, prioritize, and oversee the laboratory operating schedule to ensure maximum performance and minimum delay
- Specify and monitor Lab KPIs
- Provide prompt and accurate feedback to other departments based on internal database or external resources

**Qualifications:**

- Master's Degree in Electrical Engineering (from a Polytechnic School)
- Previous working experience in a similar role in an industrial environment or electrical testing laboratory
- Ability to conduct high-voltage electrical tests on cables
- Fluent in written and spoken English (second foreign language is an asset)
- Strong planning and organizational skills
- Excellent teamwork and communication abilities

**The Company Offers:**

- A unique opportunity to thrive in a pioneering company in cable manufacturing
- Competitive remuneration package
- Life & Health Insurance Plan
- Additional Bonus based on results
- Company Car

Join a leading provider in the cable industry and play an integral role in shaping the future of the sector. If you're passionate about quality control, electrical testing, and making a positive impact, we'd love to hear from you!
