

HORIZON

GRADUATE PROGRAM

At Euronet, we believe in technology as an enabler of change and growth. We are passionate about innovation that supports expansion through new products and new markets around the world with a human-led and tech-powered approach. We always cater for the needs of businesses and consumers as they evolve in a very dynamic and changing payments landscape.

The Horizon Graduate Program is an initiative of Euronet in Greece to invite University graduates to join our company for an initial period of 6 months, under a paid employment contract. You will work as an integral part of our teams under the leadership of experienced managers that value your work and solve meaningful problems. Upon completion of this initial period, the opportunity for an open-ended employment will be offered for selected candidates that showcase excellence and wish to work in a multi-national organization.

Career opportunity: Graduate Program – Project Delivery, Software Test Engineers

Responsibilities you will be involved with:

- Perform functional & system testing for product features.
- Perform regression testing to ensure that software updates, enhancements, and bug fixes do not adversely impact existing functionalities.
- Build and maintain test scripts.
- Perform Payments Systems configuration.
- Work closely with cross-functional teams, including developers, product managers, and business analysts, to understand software requirements, clarify ambiguities, and provide feedback on design and usability.

Studies and knowledge required:

- University Degree in any STEM-related field is required.
- Fluency in English and Greek, both verbal and written.

Competencies needed for you to be successful:

- Attention to detail.
- Ability to deliver on time and with high quality.
- Analytical and problem-solving skills & ability to prioritize tasks.
- Self-motivation and teamwork spirit.

We offer:

- Competitive compensation
- Private medical insurance care
- Possibility for a career in a growing, international environment
- Opportunities to learn and participate in various projects.

Are you passionate about technology and want to discover how quality assurance secures project delivery, fuels innovation in managing payments and fosters business excellence?

Do you want to work in a multinational, multidisciplinary environment with open opportunities for international mobility? If yes, you are welcome to contact us!

Ready to kickstart your career's journey with **Euronet's Horizon Graduate Program**?

We are waiting for your CV and contact at HRGR (hrgr@euronetworldwide.com) mentioning the position **Horizon Graduate Program – Software Test Engineers** on subject line. We will contact all qualified candidates. Looking forward to receiving your message and meet you in person!

About Euronet

Starting in Central Europe in 1994 and growing to a global real-time digital and cash payments network with millions of touchpoints today, Euronet now moves money in all the ways consumers and businesses depend upon. This includes money transfers, credit/debit processing, ATMs, point-of-sale services, branded payments, currency exchange and more. With products and services in more than 200 countries and territories provided through its own brand and branded business segments, Euronet and its financial technologies and networks make participation in the global economy easier, faster and more secure for everyone.

A leading global financial technology solutions and payments provider, Euronet has developed an extensive global payment network that includes 57,326 installed ATMs, approximately 1.200,000 EFT POS terminals and a growing portfolio of outsourced debit and credit card services which are under management in 67 countries; card software solutions; a prepaid processing network of approximately 721,000 POS terminals at approximately 354,000 retailer locations in 67 countries; and a global money transfer network of approximately 630,000 locations serving 198 countries and territories. Euronet serves clients from its corporate headquarters in Leawood, Kansas, USA, and 67 worldwide offices. For more information, please visit the company's website at www.euronetworldwide.com.
