

Job Opening: Software Developer at Aegean Baltic Bank

Aegean Baltic Bank is looking for a Software Developer to join its IT Department and support the Bank's business operations through the design, development, and maintenance of web and middleware applications.

Working closely with other IT teams, the successful candidate will contribute to the analysis, design, development, and implementation of both new and existing applications. This role offers the opportunity to participate in a variety of projects within the Bank's Digital Transformation Program, collaborating with the Software Development team to deliver innovative and efficient technology solutions.

The position reports to the Systems Design & Development Section Head.

Key Responsibilities

- Design, develop and maintain banking applications and Peripheral systems.
- Familiar with APIs to secure integration between the various systems of the Bank or external 3rd party platforms.
- Develop and extend middleware applications and front-end of web applications.
- Troubleshoot, debug and test applications.
- Collaborate with the development team to define and design technical solutions.
- Understanding business requirements and working together with other IT teams. Prior experience in Banking industry will be evaluated as an advantage.

Key requirements

- Long experience in Java.
- Long experience with Relational Databases (MSQL, MySQL, MariaDB).
- Experience in consuming and orchestrating Restful and SOAP APIs.
- Experience of ESB platforms will be considered as an advantage.
- Basic knowledge of low code platforms.
- Basic knowledge of Linux Systems.
- Knowledge of front-end languages and libraries (HTML/ CSS, JavaScript) are highly desirable.
- Git experience will be considered as an advantage.

Education and Experience Requirements

- 1+ years of working experience.
- Candidates with 5+ years of experience in Banking applications/Systems will be evaluated accordingly.
- Bachelor's Degree in Computer Science/Engineering or related technical field.
- Excellent command of the English language both written & spoken.

Interested candidates should submit their CV to hr@ab-bank.com with the following subject line: "Application for Software Developer Position".
